SUMMER INTERNSHIP				
Transmission Corporation of Andhra Pradesh Ltd (APTRANSCO)				
Analytics & Optimization Intern		Onsite (Paid)	May 2026 - June 2026 (2 months)	
Title: Security-Constrained Economic Dispatch Power Purchase Decision Support				
Problem & Discovery: Collaborated with operations leadership to diagnose power procurement bottlenecks only by listening without any document; translated ambiguous scheduling challenges into an automated decision-support roadmap replacing manual spreadsheets				
Modelling & Analytics: Engineered an optimization and cost-forecasting model using Python and SQL , analysing dynamic spot-market pricing, grid load, and transmission constraints				
Dashboard & ROI: Built executive dashboards in React tracking procurement KPIs and daily variances, driving up to a 20% reduction in overall power purchase costs				
WINTER INTERNSHIP				
Infosys Springboard, India	AI Agent Intern	Remote	Jan 2026 - Feb 2026 (2 months)	
• Designing an Autonomous Learning Agent with Checkpoint Verification and Feynman Pedagogy: Developed an LLM-based pedagogical agent using LangGraph and Python; built structured evaluation workflows achieving 90% question relevance and 95% scoring accuracy				
WORK EXPERIENCE				
Trivium Education Services, India	Subject Matter Expert (Freelance)	Remote	Aug 2020 - Jan 2025	
• Delivered quantitative problem-solving and analytical solutions for global EdTech clients (Chegg, AirMath), resolving 1,000+ complex STEM cases with a 4.5/5 client satisfaction rating; enforced strict QA standards, structured documentation, and metric accuracy to translate complex mathematical solutions into clear, client-ready formats				
MAJOR ACADEMIC PROJECT				
Domain (Technical) IIT Ropar	• OTT Platform User Fatigue & Churn Prediction: Performed customer cohort analysis and trained predictive models in Python to identify fatigue drivers and improve user retention strategies			
Domain (Management) IIM Amritsar	• Strategic Analysis & AI Disruption Roadmap of Anduril Industries: Evaluated competitive positioning using Porter's Five Forces, PESTLE, and VRIO ; authored an AI governance and risk mitigation roadmap
